

BOLLARD BOLUS

DIMENSIONS: 13.78"x29.13"
APPROXIMATE WEIGHT: 198.41lb

COLORS

The available colors are exclusive, with a visible finish.

INSTALLATION

The use of forklifts is recommended for the proper installation of the Bolus bollard.

PRODUCT INFORMATION

The Bolus bollard is a prefabricated element made of architectural concrete by Opticretos with dimensions D: 13.78", H: 29.13", and a weight of 198.41lb. Designed for outdoor use, it is resistant to vandalism and heavy-duty use. Bollards are a good option for various public and private spaces such as schools, universities, parks, corporate areas, residential spaces, industrial plants, hospitals, etc.

MANUFACTURING

Our bollards are manufactured using special molds. The concrete is processed using automated machinery, ensuring the highest quality in materials. All our products are manufactured in-house under controlled conditions.

COMPONENTS

Empleamos materiales como marmolinas de cementantes, aditivos anti hongos, fibras de polipropileno álcali resistentes, aditivos de impermeabilizante integral además de sellador hidrofugante.

ADVANTAGES

Its maintenance is minimal, and the color does not change or degrade over time since natural materials are used.

CODES AND REGULATIONS

All our concrete products comply with current regulations. Some of these codes include: ACI 318, PCI (Precast Concrete Institute), IMCYC (Mexican Institute of Cement and Concrete), and the Building Regulations of the Federal District.
