INSTALLATION

It is recommended to use a forklift for the correct installation of the Umbra HT planter.

PRODUCT INFORMATION

The Umbra HT planter is a prefabricated architectural concrete element by Opticretos with dimensions of L: 82.28", W: 82.28", H: 41.73", and a weight of 1757.25lb. Designed for outdoor use, it is resistant to vandalism and heavy-duty usage. Planters are a good choice for public and private spaces such as schools, universities, parks, corporate areas, residential areas, industrial plants, hospitals, etc.

MANUFACTURING

Our planters are manufactured using special molds. The concrete is processed using automated machinery, ensuring the highest quality in materials. All our products are manufactured in the plant under controlled conditions.

COMPONENTS

We use materials such as marble-like cement, anti-fungal additives, alkali-resistant polypropylene fibers, integral waterproofing additives, and hydrophobic sealer.

ADVANTAGES

Stain-resistant

Durability

Easy installation

Environmentally sustainable

Its maintenance is minimal, and the color does not change or degrade over time since natural materials are used.

CODES AND REGULATIONS

All our concrete products comply with current regulations. Some of these codes include: ACI 318, PCI (Precast Concrete Institute), IMCYC (Mexican Institute of Cement and Concrete), and the Building Regulations of the Federal District.
